### **NOTE:**

- All utilities connected under Chanticleer Properties or the owner will be disconnected on the day of move in. Failure to transfer the utilities in the tenant(s) name within 3 days of the beginning of the lease will result in a \$50 administration fee along with the overlapped utility cost being added to the tenant(s) account.
- Utility companies require a 24-hour (or more) notice to start new services and additional delays may apply if you are new to the service area. Plan to ensure you have utilities on the day your lease begins.
- The tenant will provide and/or forward evidence of this by the end of the first week of occupancy.
